

GENERAL INFORMATION

In accordance with the North American Free Trade Agreement (NAFTA), a designated group of Canadian professionals is admissible for “temporary” employment in the U.S. without the requirement of a U. S. Citizenship and Immigration Services (USCIS) petition approval.

The individual seeking TN classification must be coming to the U.S. to engage in business activities in one of the 63 NAFTA-specified occupations listed in [Appendix 1603.D.1 of Annex 1603 of the NAFTA](#). These professionals can enter the U.S. simply by providing documentation at the port of entry that they are engaged in one of the [designated professions](#), and that they possess the required educational credentials to qualify in the listed professions.

Please note that procedures for obtaining TN status for Mexican citizens differ from the process for Canadians. Please contact OISS for more information.

Canadian professionals already in the U.S. (probably in H-1, L-1, or O-1 status) may choose to apply for TN status through an application for change of nonimmigrant status within the U.S. This kind of TN must be processed by OISS since it requires OISS to file an I-129 petition with the U.S. Citizenship and Immigration Services in Lincoln, Nebraska. The filing fee for Form I-129 is \$460, compared to \$56 if processed at the border. Please plan ahead since it can take 2-4 months for processing.

BASIC INFORMATION ABOUT THE TN CATEGORY

Eligibility:	Certain Canadian citizens to engage in business activities in one of the 63 NATFA-specified listed on Appendix 1603.D.1 of Annex 1603 of the NAFTA. Not available to Landed Immigrants of Canada.
Duration of Stay:	An initial three (3) year period of admission is granted, with unlimited extensions of up to three (3) years each.
Work Authorization Clearance:	Work Authorization purposes, “Wayne State University” and a position title must be on the back of the TN I-94 card since the TN category is position and employer specific.
Family Members:	Spouse and unmarried children under 21 are classified in the TD category. They are not allowed to engage in employment in the U.S.

PROCEDURES FOR ADMISSION

Effective immediately, TNs do not need to come through OISS for processing. However, if you’d like OISS to process TNs, please read instructions on Page 5.

Canadian professionals seeking admission to the U.S. in the TN category must present the case for admission at the port of entry. The TN application consists of the following:

1. Proof of Canadian citizenship (i.e. valid passport, birth certificate, or citizenship card);
2. Evidence that the intended U.S. activity is one listed in [Appendix 1603.D.1](#), which should include a thorough description of the job duties (*in the form of a letter from the University department, including a statement that the purpose of the entry is temporary*);
3. Evidence that the alien has the necessary credentials to be considered a professional in one of [the Appendix 1603.D.1 fields](#);
4. Proof of a license to practice the profession if one is required in the state of intended employment;
5. Letter of employment including remuneration & benefits; and

6. Filing fee of \$50, plus \$6 for issuance of Form I-94 (Arrival/Departure Record) in the form of a personal check or money order

NOTE:

- With regard to #3, any credentials obtained outside the U.S., Canada or Mexico should be accompanied by a credential evaluation.
- With regard to #5, the TN category is position and employer specific, thus it might not be valid for any other position even within the same department. Please consult with an OISS scholar advisor prior to making any changes to the terms and conditions of the TN employment.

All documents should be presented in the original. These materials will be returned to the applicant after the inspection by the border officials.

Canadians who apply for TN status at a land border crossing post can do so at the time they drive across the border. They should ask to speak to the NAFTA officer, and it is recommended that they present themselves during normal business hours, but not during rush hour. Due to the time pressures of a departing flight, Canadians who are arriving in the U.S. by air are advised to contact the NAFTA office at the Canadian airport from which they will be departing to ask for instructions. Each NAFTA office has its own procedures; depending on the airport, it may be necessary to submit materials for TN application several days in advance.

THINGS TO CONSIDER (per the border officials):

- Does the letter contain a correct NAFTA job title?
- Does the letter contain a thorough description of the job duties?
- Does the letter contain dates of employment, not exceeding one year?
- Does the letter contain the salary and benefits?

→ If your answer “no” to any question above, explain on your cover letter.

- Does the applicant meet the NAFTA requirements for employment in the TN classification?
- Does the applicant have the required educational background for the TN classification?
- Does the applicant have the necessary license, if applicable?
- Is the applicant’s educational background from a foreign university and has been evaluated according to the U.S. standards?

NOTE -- If the scholar is new to the University, is changing from student to scholar, or is returning from a gap in employment, please advise them to attend our mandatory New Scholar/Employee Orientation at 2 p.m. on Mondays and Thursdays in the OISS Conference Room. During orientation, we will conduct immigration check-in, process I-9/OISS Clearance form, and conduct orientation. Without their participation in all three parts (or two parts, if I-9/Clearance is not needed), we will not be able to provide an accurate immigration status report to the Department Homeland Security on behalf of the scholar. OISS will not be responsible for any immigration violation stemming from their non-participation of all required parts of OISS New Scholar Orientation.

- **Accountant**--baccalaureate degree, C.P.A., C.A., C.G.A., or C.M.A.
- **Engineer**--baccalaureate degree or state/provincial license
- Scientist
 - Agriculturist** (including agronomist)--baccalaureate degree
 - Animal Breeder** -- baccalaureate degree
 - Animal Scientist**--baccalaureate degree
 - Apiculturist**--baccalaureate degree
 - Astronomer**--baccalaureate degree
 - Biochemist**--baccalaureate degree
 - Biologist**--baccalaureate degree
 - Chemist**--baccalaureate degree
 - Dairy Scientist**--baccalaureate degree
 - Entomologist**--baccalaureate degree
 - Epidemiologist**--baccalaureate degree
 - Geneticist**--baccalaureate degree
 - Geochemist**--baccalaureate degree
 - Geologist**--baccalaureate degree
 - Geophysicist** (including Oceanographer in Mexico or U.S.) --baccalaureate degree
 - Horticulturist**--baccalaureate degree
 - Meteorologist**--baccalaureate degree
 - Pharmacologist**--baccalaureate degree
 - Physicist** (including Oceanographer in Canada) --baccalaureate degree
 - Plant Breeder**--baccalaureate degree
 - Poultry Scientist**--baccalaureate degree
 - Soil Scientist**--baccalaureate degree -Zoologist--baccalaureate degree
- **Research Assistant** (working in a post-secondary educational institution)--baccalaureate degree
- Medical/Allied Professional
 - Physician** (teaching and/or research only)--M.D., or state/provincial license
 - Dentist**--D.D.S., D.M.D., or state/provincial license
 - Occupational Therapist**--baccalaureate degree or state/provincial license
 - Pharmacist**--baccalaureate degree or state/provincial license
 - Physio/Physical Therapist**--baccalaureate degree or state/provincial license
 - Recreational Therapist**--baccalaureate degree -Registered Nurse--state or provincial license

-**Veterinarian**--D.V.M., D.M.V., or state/provincial license

-**Medical Technologist**--baccalaureate degree of post-secondary diploma and three years' experience—

Must be seeking entry to perform chemical, biological, hematological, immunologic, microscopic, and bacteriological tests, procedures, experiments, and analysis in laboratories for diagnosis, treatment, and prevention of disease

- **Architect**--baccalaureate degree or state/provincial license
- **Lawyer**--L.L.B., J.D., L.L.L., B.C.L., or Licencuature degree (five years) or membership in a state/provincial bar
- **Technical Publications Writer**--baccalaureate degree of post-secondary diploma and three years' experience
- **Teacher**
 - College--baccalaureate degree
 - University--baccalaureate degree
 - Seminary--baccalaureate degree
- **Technical Publications Writer**--baccalaureate degree or post-secondary diploma and three years' experience
- **Urban Planner**--baccalaureate degree
- **Vocational Counselor**--baccalaureate degree
- **Economist**--baccalaureate degree
- **Social Worker**--baccalaureate degree
